

Coin Haven (User Manual)

When the application launches you will be greeted with a welcome screen. On this welcome screen, you will be prompted to create a new account. Enter your first and last name, and date of birth, and create a username and password for your account.

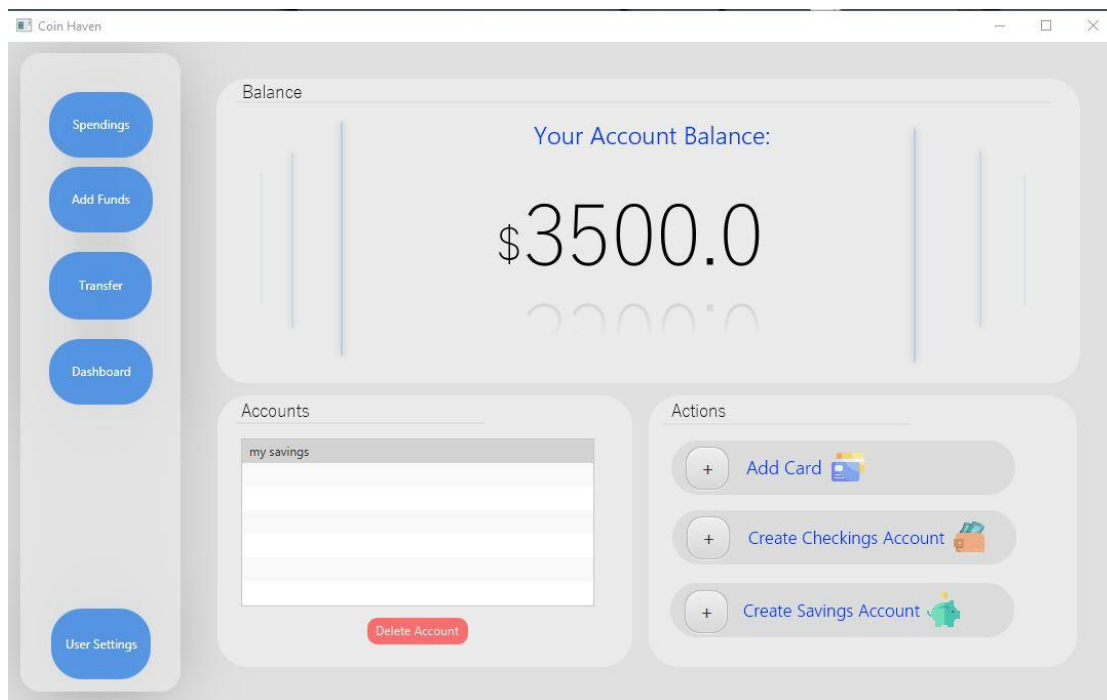

The screenshot shows a web browser window titled "Coin Haven Login". The window is divided into two main sections. On the left, there is a large blue rounded rectangle with the text "Coin Haven" in white. On the right, there is a light gray area containing a registration form. The form starts with the text "Welcome to Coin haven! Create an account to begin". Below this, there are three input fields: "First Name:" with a text input, "Last Name:" with a text input, and "Date of Birth:" with a date picker showing "mm/dd/yyyy". Below these fields, there are two more input fields: "Create Username:" and "Create Password:". At the bottom of the form is a blue button labeled "Register".

Once you click "Register" a new page will appear again greeting you to the application. From here you will see a panel with different navigation buttons that serve distinct purposes. If you click "User settings, a new page will be brought up with all of the information entered on the login screen.

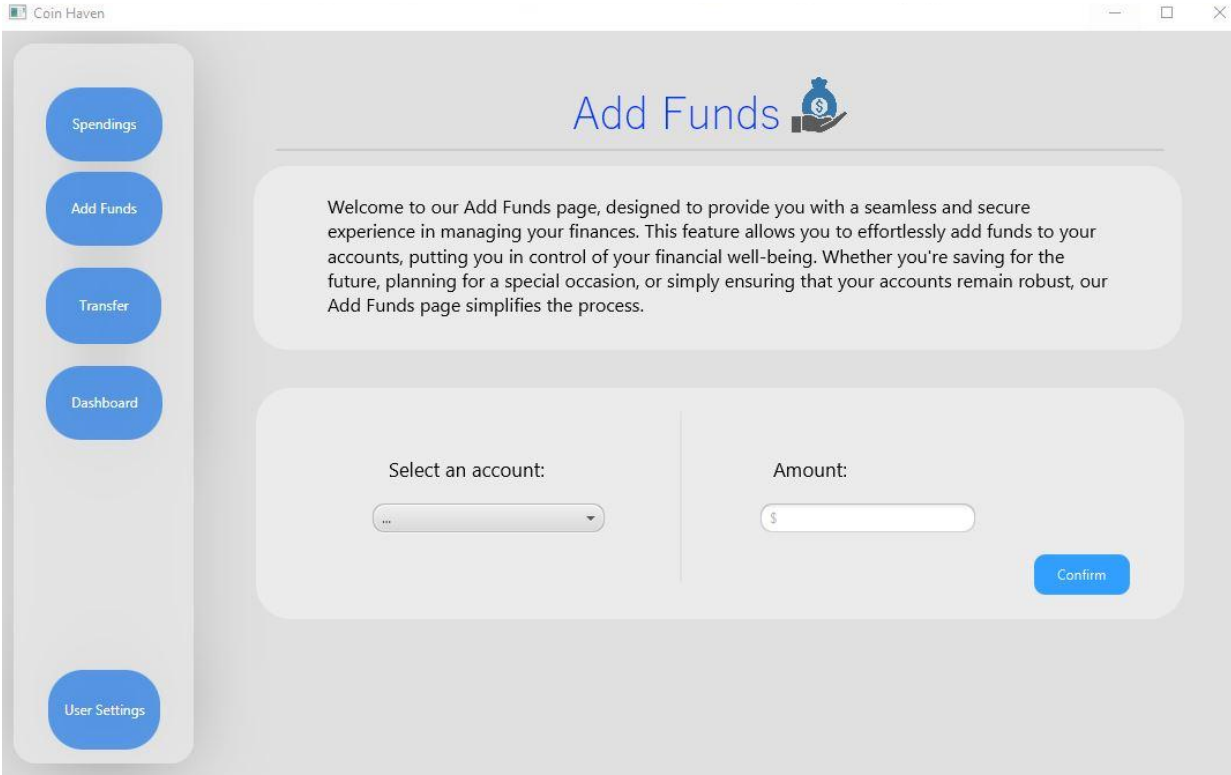

From there, you can click on “Dashboard”. On this screen, you will be able to make any amount of checking and savings accounts, along with adding a card. Just click the plus button next to the account you want to make and a new window will appear, fill out each field, and once the account is created, it will appear under the “Accounts” section of the page.

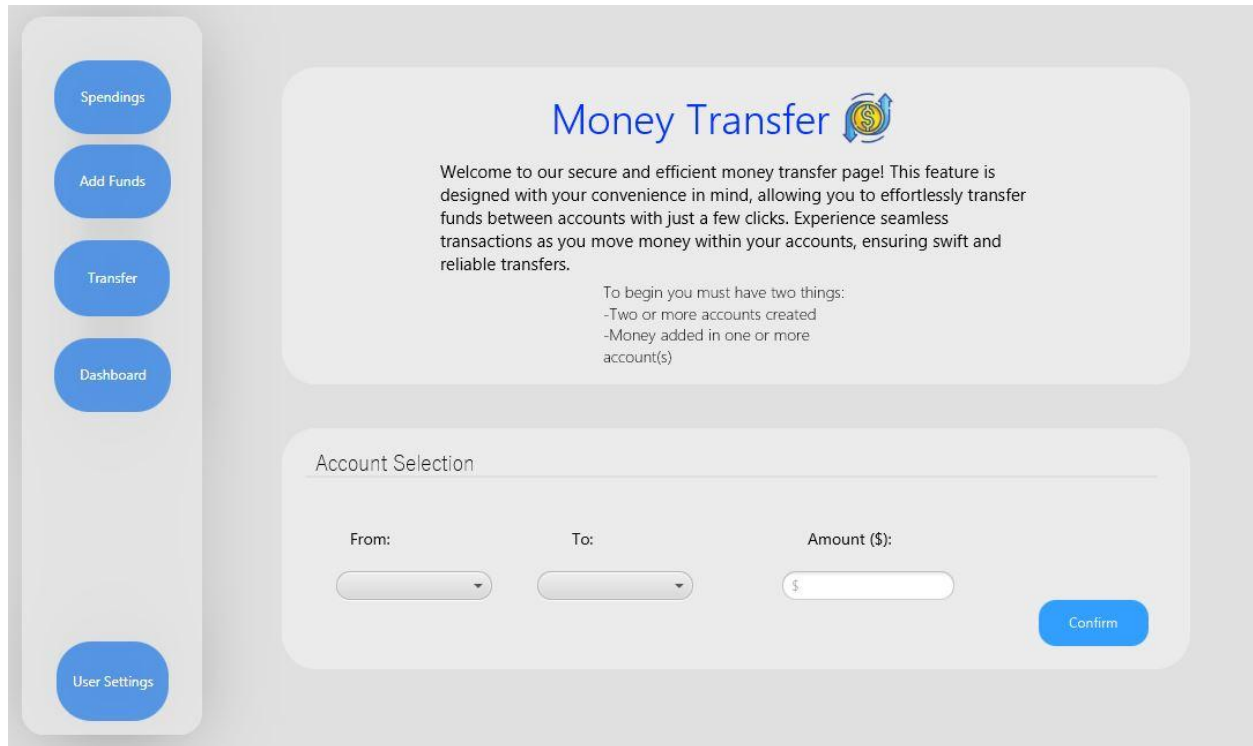

If you click on an account, your balance for that account will be displayed for you to view at the top portion of the page. Now that you have an account(s) created, you can either add more money to it by clicking “Add Fund”, or transfer money between accounts by clicking “Transfer”.

On the “Add funds” page, you will be greeted at the top. On the bottom you will see a dropdown box, allowing you to select an account that you have already created. Once you select an account, enter the amount of money you would like to add to that account and click confirm. You will see the updated balance on the dashboard.

The screenshot shows a web application window titled "Coin Haven". On the left is a vertical sidebar with five blue buttons: "Spendings", "Add Funds", "Transfer", "Dashboard", and "User Settings". The main content area is titled "Add Funds" with a money bag icon. Below the title is a welcome message: "Welcome to our Add Funds page, designed to provide you with a seamless and secure experience in managing your finances. This feature allows you to effortlessly add funds to your accounts, putting you in control of your financial well-being. Whether you're saving for the future, planning for a special occasion, or simply ensuring that your accounts remain robust, our Add Funds page simplifies the process." Below this message is a form with two sections: "Select an account:" with a dropdown menu showing "...", and "Amount:" with a text input field starting with a "\$" symbol. A blue "Confirm" button is located to the right of the amount input field.

On the “Transfer” page, you will be greeted again at the top, but there is also a small list of requirements for this functionality. 1) Two or more accounts must have already been created. 2) Money / Starting balance must be added to one or more account(s).

The image shows a web interface for a "Money Transfer" feature. On the left is a vertical sidebar with five blue buttons: "Spendings", "Add Funds", "Transfer", "Dashboard", and "User Settings". The main content area has a light gray background. At the top, it says "Money Transfer" with a dollar sign icon. Below this is a welcome message: "Welcome to our secure and efficient money transfer page! This feature is designed with your convenience in mind, allowing you to effortlessly transfer funds between accounts with just a few clicks. Experience seamless transactions as you move money within your accounts, ensuring swift and reliable transfers." To the right of this message, it says "To begin you must have two things:" followed by a bulleted list: "-Two or more accounts created" and "-Money added in one or more account(s)". Below the welcome message is a section titled "Account Selection". It contains three labels: "From:", "To:", and "Amount (\$):". Each label has a corresponding input field. The "From:" and "To:" fields are dropdown menus, and the "Amount (\$):" field is a text input with a dollar sign icon. To the right of these fields is a blue "Confirm" button.

Now you can select an account more money from and to by using the dropdown box where your accounts will be listed. Enter the amount you'd like to transfer and click confirm. The updated balance for both accounts will appear on the dashboard.

Lastly, we have the "Spendings" page. This page is useful for creating lists of tasks/items to purchase and visually seeing how it affects a selected account balance. This is a good way to manage your money and plan a purchase.

To begin, select the account you would like to use for spending from the dropdown box. The account balance will be displayed on the right-hand side for reference. Then simply enter the name of the task you want on your list, and click the "add task" button. It will be added to the list view box.

Add as many as you'd like. Now select a task from the box, and in the entry box under "amount" enter the cost or the amount of money that will be spent on that task/item and click "Purchase". The money will immediately be deducted from your account as you will see on this page.

Coin Haven

Manage Spending

Welcome to the Spendings Management Page! This page allows you to efficiently manage your expenses and financial goals. Choose an account from the dropdown menu, add tasks to your spending list, and track your expenses effortlessly. Enter the cost of each task and click 'Purchase' to deduct the amount from your selected account. The list of tasks helps you stay organized, and with a simple click, you can remove completed tasks. Take control of your finances with ease!
